

# Tamás TÓTH

IPA /toma:f 'to:t/  
 country Serbia/Hungary  
 e-mail mounTTain@gmail.com  
 personal pronouns *i am that i am*  
 “title” CSS guru | HTML ninja | accessibility expert | UI/UX design enthusiast

**skills** PSD design to HTML, UX design, HTML/CSS/JS, WCAG accessibility, WAI-ARIA, Schema.org, Screen readers, Tailwind CSS, Bootstrap, Zurb Foundation, Bulma, Buefy, var(--custom-properties), shadow DOM, web components, BEM, Less, Sass, Sass-lint, Flexbox, CSS grid, CSS animations, GSAP, three.js, <picture>, above the fold critical CSS, SVG, <noscript>, speed optimization, FOUT/FOIT/FOFT, icon fonts, jQuery, AngularJS, VueJS, React, BlitzJS, MUI, JSON, PageSpeed Insights, Lighthouse, Webdev Checklist, performance budgeting, BrowserStack testing, LambdaTest, SEO, gulp, npm, git, vagrant, Jenkins, Wordpress, PHP, Jekyll, SQL, email templates, CorelDRAW, Photoshop, InVision, Figma, Zeplin, ChatGPT, ...

**cover letter** A “front-end architect” with ++i years of experience. I am the glue between the frontend, UX, and the graphical design. I'm not from the arts academy but I feel it in my stomach if something is not right with the color palette (and when a space is missing between words!) My core competency lies in the fine details: semantic, accessible, and SEO friendly HTML with WCAG compliance, Schema.org, and WAI-ARIA. I think before I code.

If you care about accessibility and the subtle details; if your project is clever, useful and interesting (and helps to achieve World Peace ;-) you are at the right address!

My Flappy Bird score is 687.

**work** 2014 - ∞ Expect web development, [expect.agency](#)  
*position: CEO, CTO and OCD*  
*tasks: freelance work e.g. [thedreamers.us](#), conference speech at [DaFED: Accessibility ABC](#), Jekyll theme for [testedonhumans.xyz](#), Tumblr theme for [lapetitevackor.tumblr.com](#)*
